Nature's Gift, Skin's Glow

Mineral Clean Beauty from Korea

# TOKTOKCOS

Awaken Your Skin with Korean Illite

From the pristine mineral earth of Yeongdong,

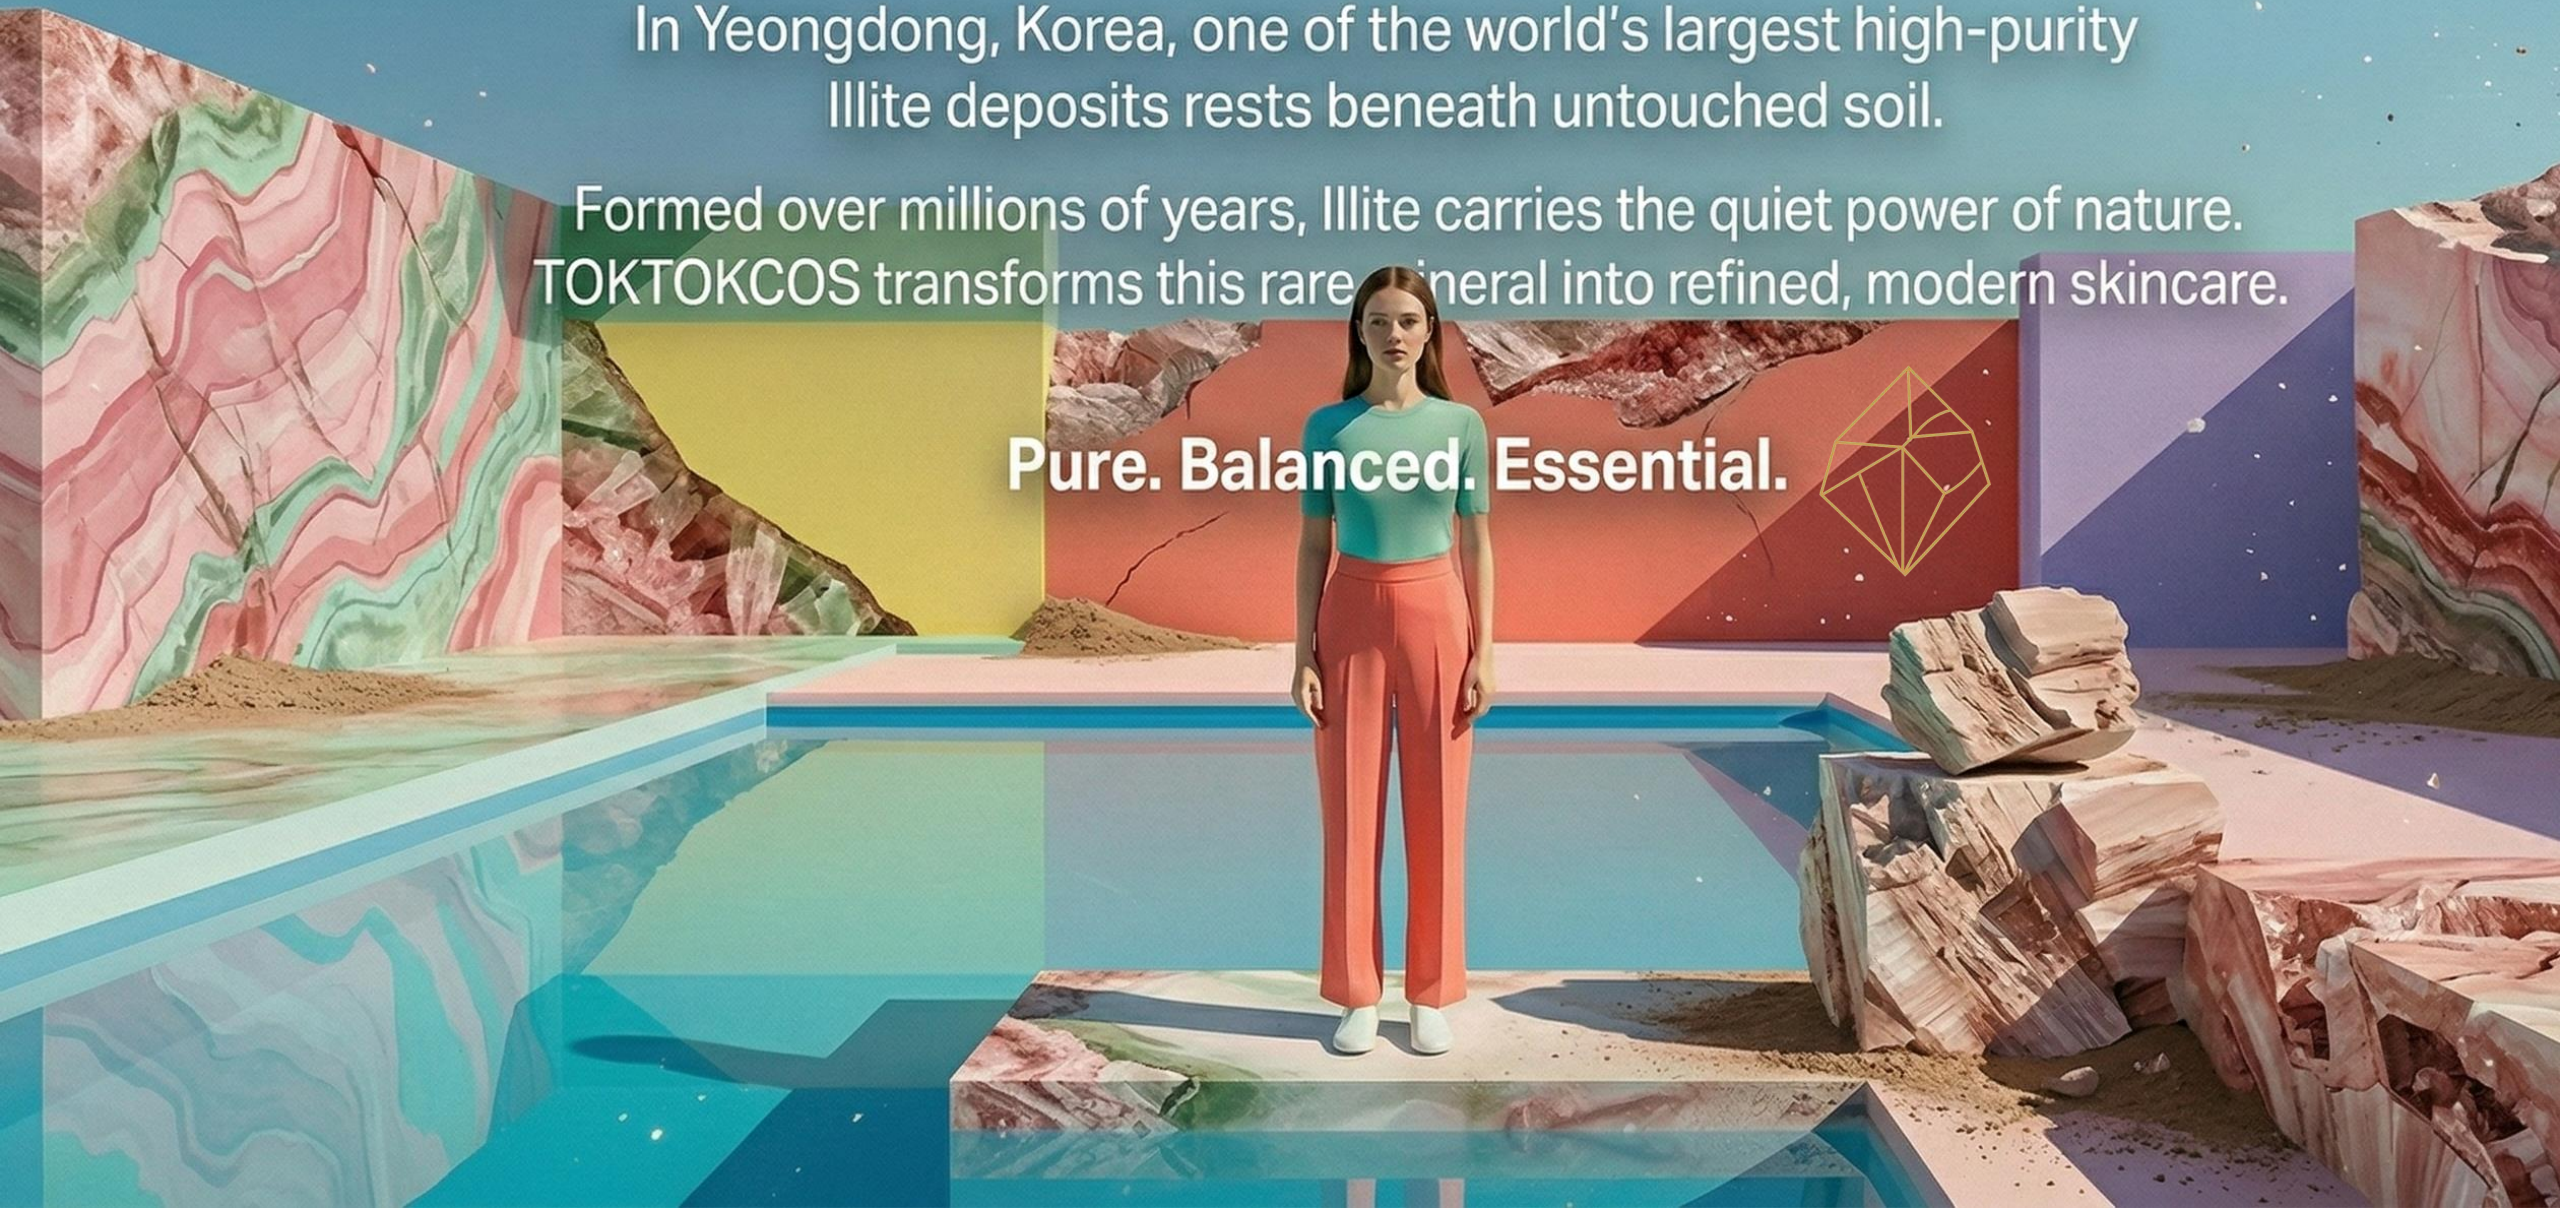

we bring you the future of clean beauty.

# Born from the Earth

In Yeongdong, Korea, one of the world's largest high-purity Illite deposits rests beneath untouched soil.

Formed over millions of years, Illite carries the quiet power of nature. TOKTOKCOS transforms this rare mineral into refined, modern skincare.

**Pure. Balanced. Essential.**

# The Mineral Intelligence

Illite is known for:

- Exceptional adsorption of impurities
  - Micro-dust purification
  - Mineral nourishment
- Gentle antibacterial properties
- Natural far-infrared emission

Unlike ordinary clay, Korean Illite is dense, stable, and exceptionally pure. It does not strip the skin.

**It restores equilibrium.**

# Clean Beauty, Reimagined

We remove what is unnecessary.  
We preserve what is essential.

True luxury lies in purity.

# Every product undergoes:

- Dermatological testing
- Stability verification
- Heavy metal safety screening
- Standardized GMP production

Consistency is not optional.  
It is foundational.
